The screenshot shows a web browser window titled "ForgottenPswd". The main heading is "It looks like you forgot your password". Below this, there are two input fields: "Please insert your username" with the value "David", and "Enter your hobby, if it matches username, you can change password" with the value "gbkow3rgoerjkger". A red "Check" button is positioned between these fields. Below the hobby field, there is a partially visible "Here" label and another input field. Below that is a "Please enter your password again" label and a password input field. A red "Confirm" button is below the password field. A red "Back" button is in the bottom right corner. A modal dialog box is open in the center, displaying the message "Hobby does not match our records. Please try again." with a close button (X) and an "OK" button.
